e. What is the ultimate purpose or functional use of the construction once it is completed?: Install Intrusion alarm panels on the maintenance building, the Veterinarian Building, and the Animal Kitchen. Replace the Headend of the intrusion alarm panel at the Welcome Center. Install cameras to cover the parking lots and the front courtyard of the Welcome Center.

6) Classifications of Construction:

Classification Type and Cost Total	Description
<b>General Building (B)</b> <b>Cost: \$233,804.72</b>	APIC Solutions is proposing to provide, install, program, and test a manual fire alarm system with selective detection in each of the following locations. Visitor Center Veterinary Building Maintenance Building Lion Exhibit Bobcat Exhibit Elk Barn Deer Barn Animal Kitchen Reptiles Building Each building will be equipped with a new standalone fire alarm system and will be installed to meet

minimum IFC code requirements and NFPA72 installation standards. Each system will be monitored and reported to our UL listed central station monitoring service via cellular dialer. The monitoring service will be used to notify the customer and or the fire department of any fire alarms or other signals at each building. A separate proposal will be provided for the monthly monitoring service and is not part of this proposal. APIC will provide and install new conduit/boxes where needed and dedicated power for each system. APIC will produce a fire alarm drawing package that will be provided to the State Fire Marshals Office for approval, permitting and acceptance testing. System Training, O&Ms, and As-Built Documents will be provided upon completion of the project.
